

THE UNICELL ADVANTAGE

ONE OF A KIND

Each Unicell van body is created using our patented programmable fiberglass application machine, which enables Unicell to design and build van bodies that are more aerodynamic and better styled than conventional methods and materials allow.

RUGGED

Unicell's unique construction is built to withstand abuse: our fiberglass bodies are tougher and more puncture resistant than .040" aluminum bodies or 1/2" plywood, leading to fewer ugly dents and costly repairs.

SLEEK

Our bodies are manufactured from one-piece molded fiberglass, which means no seams, caulking, or unsightly rivets, just an uninterrupted, smooth, glossy white gel-coat finish. Unicell bodies look great on their own, or provide the perfect canvas for vinyl graphic wraps.

LIGHTWEIGHT

Unicell presents the best van body choice pound for pound: our bodies are as light as any aluminum sheet and post design but considerably stronger, and they are far lighter than any FRP construction.

LONG-LASTING

Unicell bodies are built to last and backed by our 5-year limited warranty. Our fiberglass design makes repairs quicker and easier than for other constructions, which puts you back on the road sooner. Unicell's reputation for quality results in consistently higher value upon resale.

UNICELL

CARGOCELL

The CargoCell

The CargoCell is the product that launched Unicell, first hitting the road in 1977, and remains one of Unicell's top sellers. A favorite with daily rental companies, this traditionally styled cube van body enjoys all the advantages that one-piece fiberglass design has to offer. Forty years experience and improvements have made the CargoCell a go-to across a broad range of industries.

The Perfect Tool For

DAILY RENTALS

PLUMBERS

CONTRACTORS

SELF-STORAGE

MOBILE REPAIRS

Standard Features

BULKHEAD

Solid bulkhead wall
6" Set Back on Ford chassis

BUMPER

Galvanized Bumper

DOOR

Premium quality roll-up rear door
Standard Sliding bulkhead door in the front wall

EXTERIOR

Fiberglass Construction
Gel Coat Surface
Steel Sill Protection
Anodized Aluminum Rub Rail
HD steel understructure
Protective undercoating
Stainless steel rear grab handles
LED Rear Tail Lights
Rear Mud Flaps

FLOOR

1-3/8" spruce plank flooring painted grey

INTERIOR

3/4" slats on side walls
Hoop Posts
Weatherproof wiring system
24" LED Dome light with timer switch
Leak-proof integral skylight
