

THE UNICELL ADVANTAGE

ONE OF A KIND

Each Unicell van body is created using our patented programmable fiberglass application machine, which enables Unicell to design and build van bodies that are more aerodynamic and better styled than conventional methods and materials allow.

RUGGED

Unicell's unique construction is built to withstand abuse: our fiberglass bodies are tougher and more puncture resistant than .040" aluminum bodies or ½" plywood, leading to fewer ugly dents and costly repairs.

SLEEK

Our bodies are manufactured from one-piece molded fiberglass, which means no seams, caulking, or unsightly rivets, just an uninterrupted, smooth, glossy white gel-coat finish. Unicell bodies look great on their own, or provide the perfect canvas for vinyl graphic wraps.

LIGHTWEIGHT

Unicell presents the best van body choice pound for pound: our bodies are as light as any aluminum sheet and post design but considerably stronger.

LONG-LASTING

Unicell bodies are built to last and backed by our 5-year limited warranty. Our fiberglass design makes repairs quicker and easier than for other constructions, which puts you back on the road sooner. Unicell's reputation for quality results in consistently higher value upon resale.

UNICELL

SERVICELL

The ServiCell

The ServiCell combines the advantages of Unicell’s one-piece fiberglass body with the functionality and compartments found on most service bodies. The dual-access compartments make tools and equipment accessible from both inside and outside for ease of use. Additionally, full standing room and countertop work surfaces inside the body makes the ServiCell the ideal mobile work space. The ServiCell lets you stay dry and stay organized on any job site.

The Perfect Tool For

CONTRACTORS

MUNICIPALITIES

MOBILE REPAIRS

ELECTRICIANS

PLUMBERS

Standard Features

AERODYNAMICS

Built-in air deflector with storage
Full length lower skirt

BULKHEAD

Standard Sliding bulkhead door in the front wall

BUMPER

Galvanized Step Bumper

DOOR

Full height double panel narrow barn door

EXTERIOR

Fiberglass Construction
Gel Coat Surface
Fiberglass Rear Frame
Steel Sill Protection
Anodized Aluminum Rub Rail
HD steel understructure
Protective undercoating
Stainless steel rear grab handles
LED tail Lights
Mud Flaps

FLOOR

1-3/8" spruce plank floor painted grey
Wheel boxes

INTERIOR

Hoop Posts
Weatherproof wiring system
24" LED light with timer switch
Leak-proof integral skylight
